

Keep America Free Under God

Dear Chelas of the Will of God,

Beloved El Morya delivered a powerful message in 1974 that was relevant to what America was facing in that cycle. But parts of his message are as true today as they were then because the divine purpose and destiny of America has not changed.

Here is an excerpt that is relevant to what we as a nation are facing today:

“I address you in order that this government and this nation shall not perish from the earth. I address you to enlist your support of the holy cause of keeping this nation free under God—not for vainglory, not for chauvinism, but solely as the opportunity under the sun for every man and woman to attain the fullness of the Christ-potential.

“The hierarchy is not prejudiced for America or against other nations. The scope of our consciousness is vast. We do not segregate mankind. That is the work of the dark ones. We do not compartmentalize, nor are our tactics those of the cloak-and-dagger, divide-and-conquer method. We come to consecrate individual man and to consecrate a place, a territory, for the evolution of that man.”

In 1977, Saint Germain said, “America was founded by the ascended masters as a place secure, protected—a land of abundant resources and opportunity, a land where the forum of the greatest souls of the ages would one day produce the greatest science and the greatest religion of all time and space.”

Join us this Sunday to hear what the ascended masters have to say about the conditions and decisions facing America as a nation and each of us as individuals at this time.

Always Victory!

If your request is not lawful, this will be made clear to you in the outplaying of events. You can always write again to me and to the Lords of Karma.
